Remarques :

- Un territoire peut être concerné par un risque inondation sans être couvert par un plan de prévention des risques (PPR). Pour connaître le risque inondation de manière précise, une cartographie informative des zones inondables est disponible sur le site internet de la préfecture : <http://www.haute-garonne.gouv.fr/Politiques-publiques/Environnement-eau-risques-naturels-et-technologiques/Risques-naturels/Connaissance-des-risques-naturels/L-atlas-des-Zones-Inondables-de-la-Haute-Garonne/L-Atlas-des-Zones-Inondables-de-la-Haute-Garonne>
- Toutes les communes sont concernées par les risques météorologiques (vent violent, tempête, neige, canicule...), et par le risque exposition à un nuage radioactif (distribution de comprimés d'iode).
- Pour le risque « transport de matières dangereuses », se référer au dossier départemental des risques majeurs (DDRM), consultable sur le site internet de la préfecture : <http://www.haute-garonne.gouv.fr/Politiques-publiques/Environnement-eau-risques-naturels-et-technologiques/Risques-naturels/Information-et-prevention-des-risques/Dossier-Departemental-des-Risques-Majeurs-DDRM>
